

CONSULTATION IN OUR OFFICE

- Entrance to the agency is only permitted for fully vaccinated or recovered persons
- No exceptions can be made for unvaccinated persons aged 12 and over; not even if they cannot be vaccinated
- A daily negative test is sufficient for children under 12 years of age; this includes, for example, the test booklet from school
- The certificates must be verified upon entrance to the building in conjunction with an official identification document presented in its original form

We are happy to offer counselling outdoors, by telephone or online to people without a Covid vaccination.

... and when it gets really cold, we'll provide you with hot-water bottles, tea and blankets ;)

We look forward seeing you!
